SUMMARY

Computer Science undergraduate passionate about software development, machine learning, UI/UX design, problem solving, and building user-friendly digital solutions. Strong foundation in web development, data structures and algorithms, machine learning, and core computer science concepts, with hands-on experience in developing real-world projects, building predictive models, and collaborating within dynamic team environments.

EDUCATION

College of Engineering Chengannur

Bachelor of Technology in Computer Science | CGPA: 9.6

Sep. 2023 - Present

Alappuzha, Kerala

PROJECTS

IBENTO : Smart Campus Event Management System | [Link](#)

ReactJS, Tailwind CSS, Firebase

- Developed a scalable three-tier event management platform using React.js and Firebase to support seamless event registration and real-time updates.
- Enabled real-time seat tracking with Firestore to prevent overbooking.
- Integrated QR-based attendance verification and automated registration workflows to simplify check-in processes and improve event coordination.

PLACIFY AI : AI-Powered Placement Package Predictor | [Link](#)

Python, Scikit-Learn, Pandas, Streamlit

- Designed and developed a predictive analytics platform leveraging Linear Regression to forecast student placement packages using academic and skill-based parameters.
- Developed a user-friendly Streamlit dashboard enabling real-time package prediction and visualization of key factors influencing placement outcomes.

LEADERSHIP AND EXPERIENCE

Creative and Innovation Lead

Jan. 2026 - Present

IEDC BOOTCAMP, College of Engineering Chengannur

Remote

- Led creative strategy, overseeing the design and execution of 40+ campaigns, events, and digital assets, increasing brand visibility and driving a 20% improvement in audience engagement.
- Managed and mentored a multidisciplinary design team, ensuring high-quality deliverables while fostering creativity, collaboration, and adherence to deadlines.

Design Lead

Jan. 2026 - Present

GTech MuLearn, College of Engineering Chengannur

Remote

- Directed end-to-end design execution for events and digital campaigns, contributing to a 8% increase in engagement and participation for the events.
- Guided a team of 4+ designers to deliver around 30+ design assets and event creatives, enhancing event visual quality resulting in amplified event participation.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL, JavaScript, HTML, CSS

Frameworks & Libraries: React, Tailwind CSS, Pandas, NumPy, Scikit-Learn

Tools & Platforms: Figma, Jupyter Notebook, GitHub, Firebase, Vercel, VS Code, PyCharm, Canva

Concepts: OOPS, DBMS, Data Structures, Operating Systems, Computer Networks

CERTIFICATIONS

- Postman API Fundamentals Student Expert - Postman
- Data Structures & Algorithms using Python - NPTEL

LANGUAGES

- Malayalam - Native
- English - Fluent
- Hindi - Basic
